SettleOps AI

Team spectrUM x UMH 2026

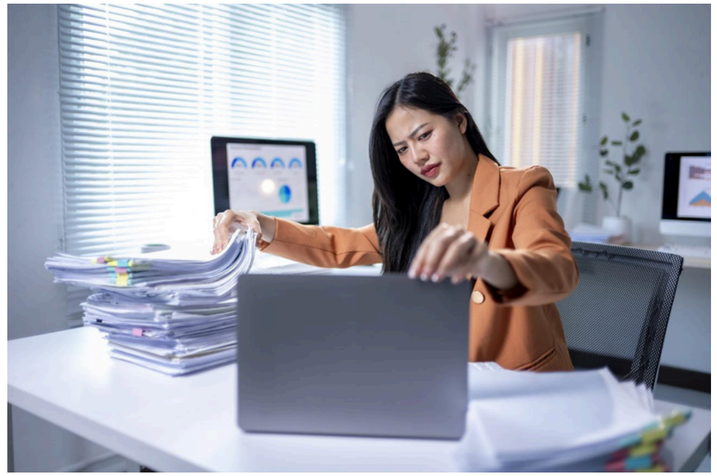
Real World Problem

Too many documents, no single source of truth

Police report
Adjuster report
Policy and cover note
Workshop quotation
Crash photos

The Manual bottleneck

2-4 days per claim
25-50 claims per day
Constant context switching



🤕 PAIN POINT:

Manual review is a repetitive task.

It is the problem.

Introducting

SettleOps AI

THE INTELLIGENCE BEHIND INSURANE CLAIM DECISIONS

 # Transforming a 2-4 days manual review
into a 10 minutes AI-assisted decision

Motivation

The Hidden Cost of Manual Decisions

// Too many claims, but too little time

// Too much data make No clear decision

Every claim is a puzzle 🧩
Solved manually, every time.

Solution

AI Decision Support for Claim Officers

SettleOps AI Reads Everything

Police report
Policy and cover note
Photos
Workshop quotation
Adjuster report

+

AI Drafts All the Documents provided into a formal claim document

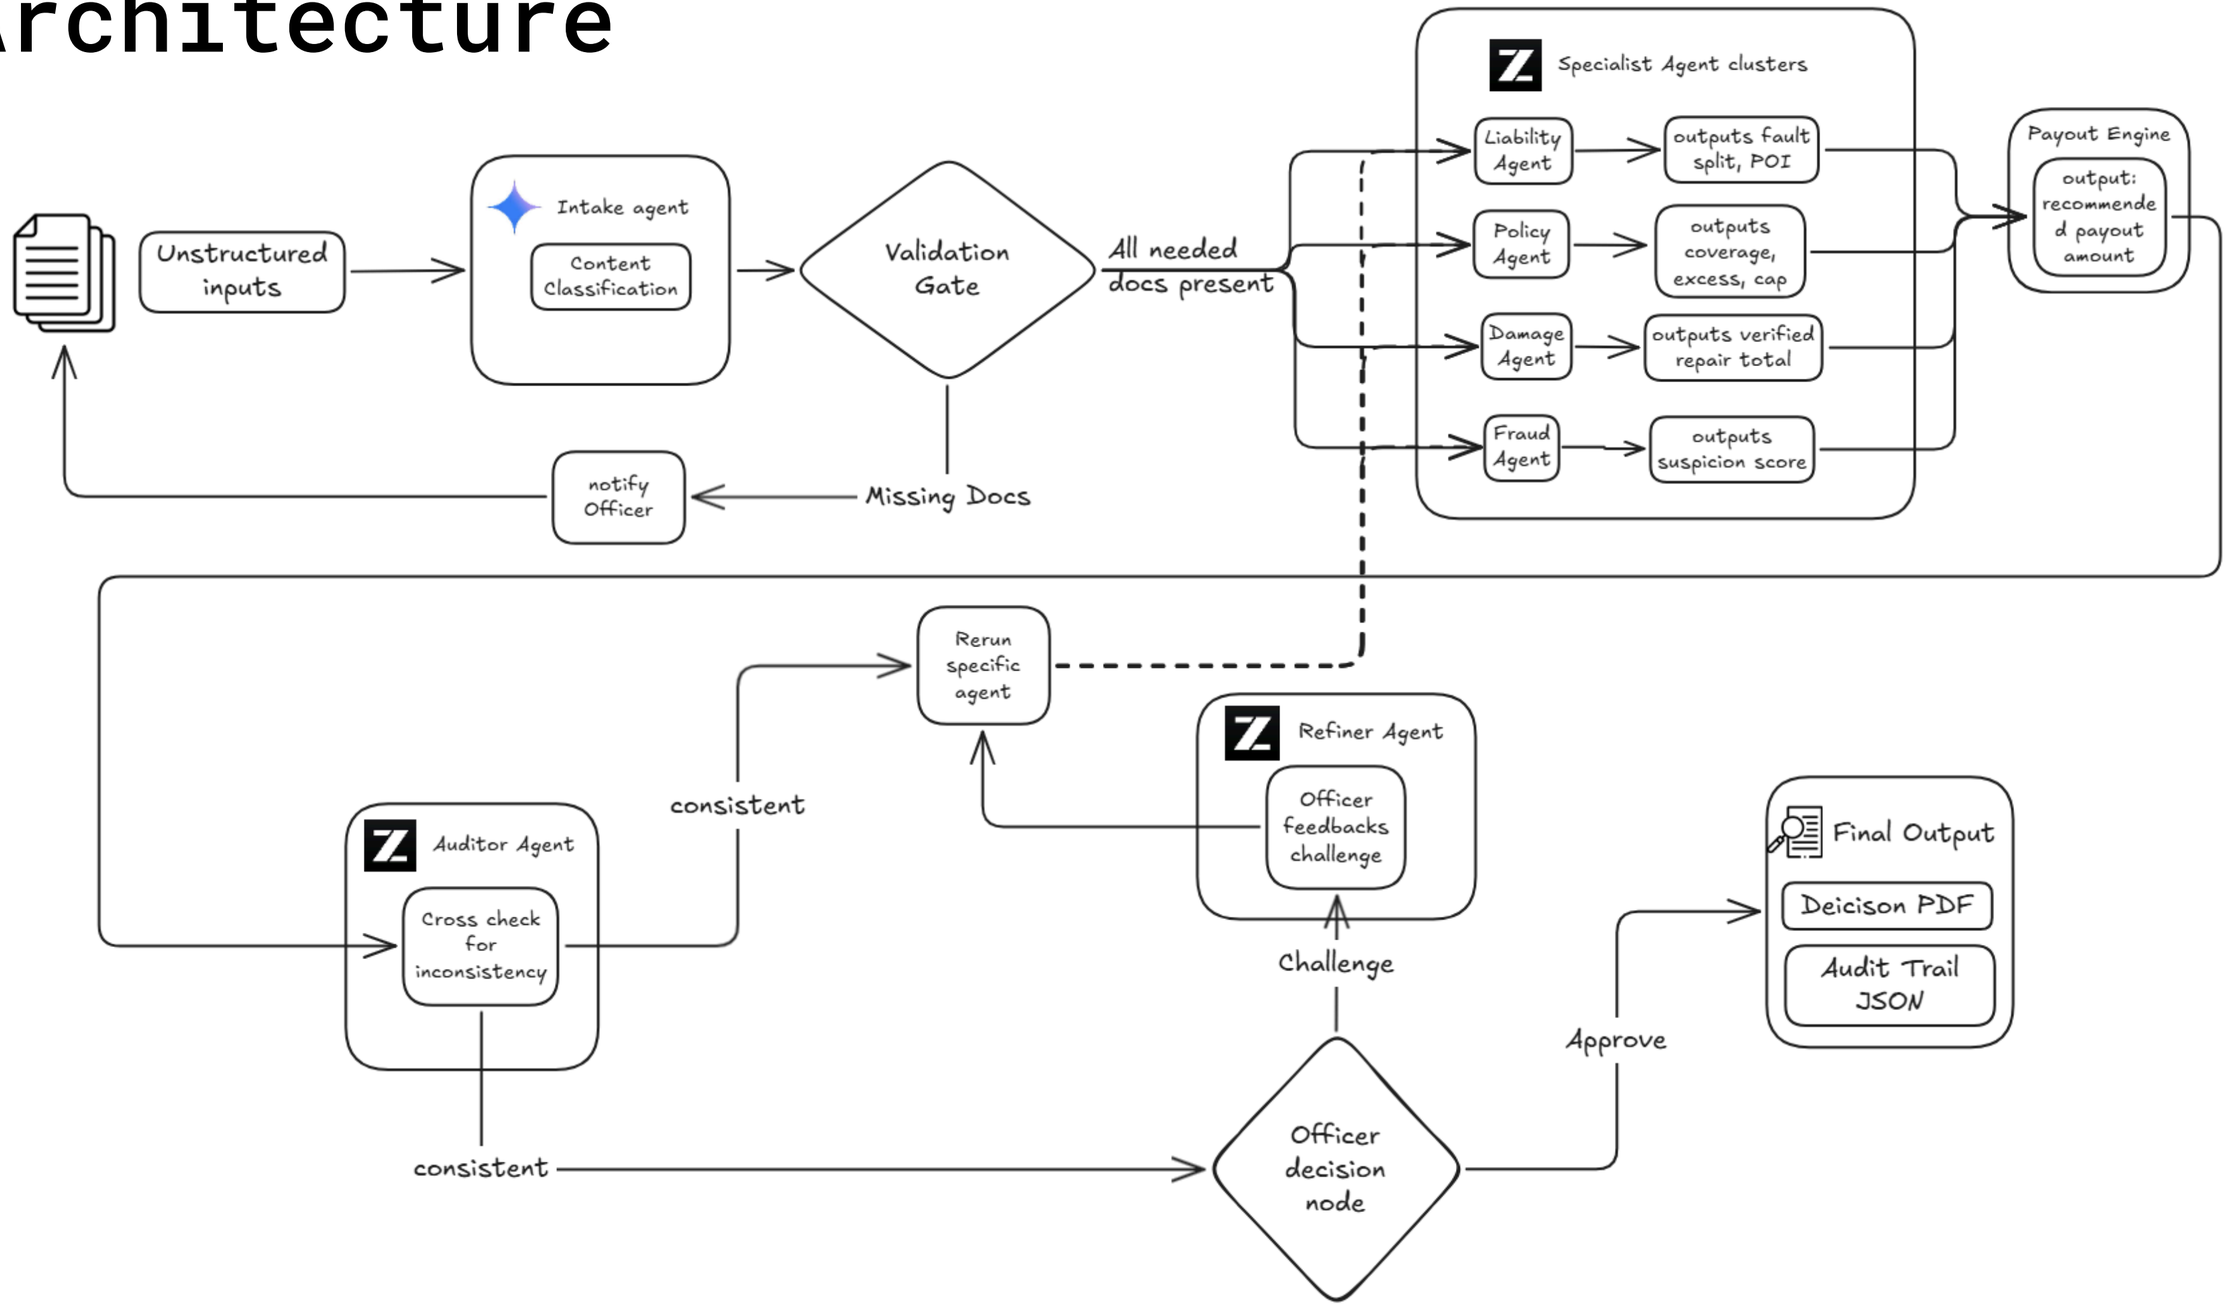
Officer reviews ➡️ Approve / Decline / Challenge

The officer only needs to decide

But, Is It Reliable?🤔

If the AI is not confident, it escalates , not guesses.

Architecture



Is It Reliable?

Human-in-the-loop

AI drafts only
Only Officer makes final decision

Self-checking AI

Detects inconsistencies
Challenges weak reasoning
Escalates uncertain cases

Explainable Reasoning

Structured decision output
Clear evidence references
Full audit trail

Others scale manpower.
We scale intelligence. 🤖

Competitor Analysis

Capability	ABBYY	Kofax	Hyperscience	Google Doc AI	SettleOps
Document Extraction	✅	✅	✅	✅	✅
End-to-End Claim Workflow	❌	✅	❌	❌	✅
Multi-Agent Architecture	❌	❌	❌	❌	✅
Fraud Detection	❌	❌	❌	✅	✅
Human-in-the-Loop Review	✅	✅	✅	✅	✅

Impact

Faster Decisions. Better Outcomes. Lower Cost.

Faster Claim Settlement

Biggest customer-facing impact

Core KPI in insurance(speed = satisfaction)

Reduced cost

Most important fo company sustainability & profit

Affects scalability and pricing

Fraud detection accuracy

Prevents major financial loss

Critical for risk control and trust

From days ➡️ minutes.

From manual ➡️ intelligent.

Business Value

Cost Reduction & Workforce Optimization

Risk Mitigation (Anti-Fraud)

Data Security & Compliance

Customisation & Improvement Flywheel

Business Logic

Enterprise Software with a Maintenance Agreement

On-Premise (Self Hosted) sensitive data never leaves

Profit: Perpetual License and Term License

Profit: Software Maintenance Agreement

Performance Metrics

Metric	Calculation	Result
Time reduction	3 days (4,320 mins) per case AI: 10 mins per case	99.7% time reduced
Full Time Employee capacity cut	Manual: 115 FTEs required for 10k cases AI: 1 Oversight Operator required	From 115 employee to 1
ROI (Rate of Investment)	Savings: 114 staff × 60k salary (6.84M) Cost: 50k System Fee	ROI = 13,580%

Thank You.
