SettleOps AI

Team spectrUM x UMH 2026

Introducing

SettleOps AI

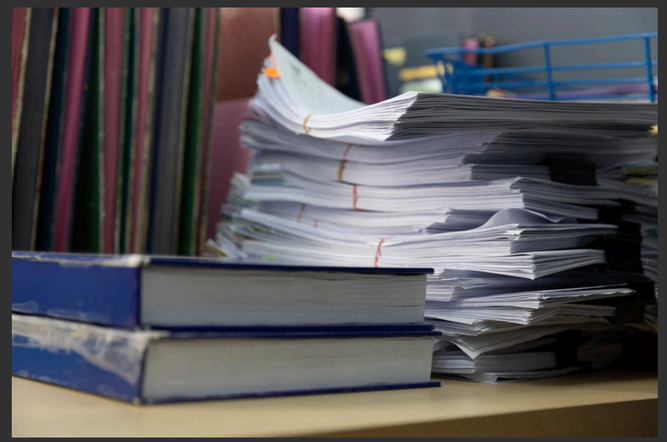
THE INTELLIGENCE BEHIND INSURANE CLAIM DECISIONS

// Transforming a 30-60 minute manual review into a 90-second AI-assisted decision

Real World Problem

Too many documents,
no single source of truth

Police report
Adjuster report
Policy and cover note
Workshop quotation
Crash photos



Manual decision - making
bottleneck

30-60 minutes per claim
15-25 claims per day
Constant context switching

Every claim is a puzzle
Solved manually, every time

Motivation

The Hidden Cost of Manual Decisions

// Too many claims, but too little time

// Too much data make No clear decision

PAIN POINT:
Manual review is a repetitive task
It is the problem

Solution

AI Decision Support for Claim Officers

SettleOps AI Reads Everything

Police report
Policy and cover note
Photos
Workshop quotation
Adjuster report

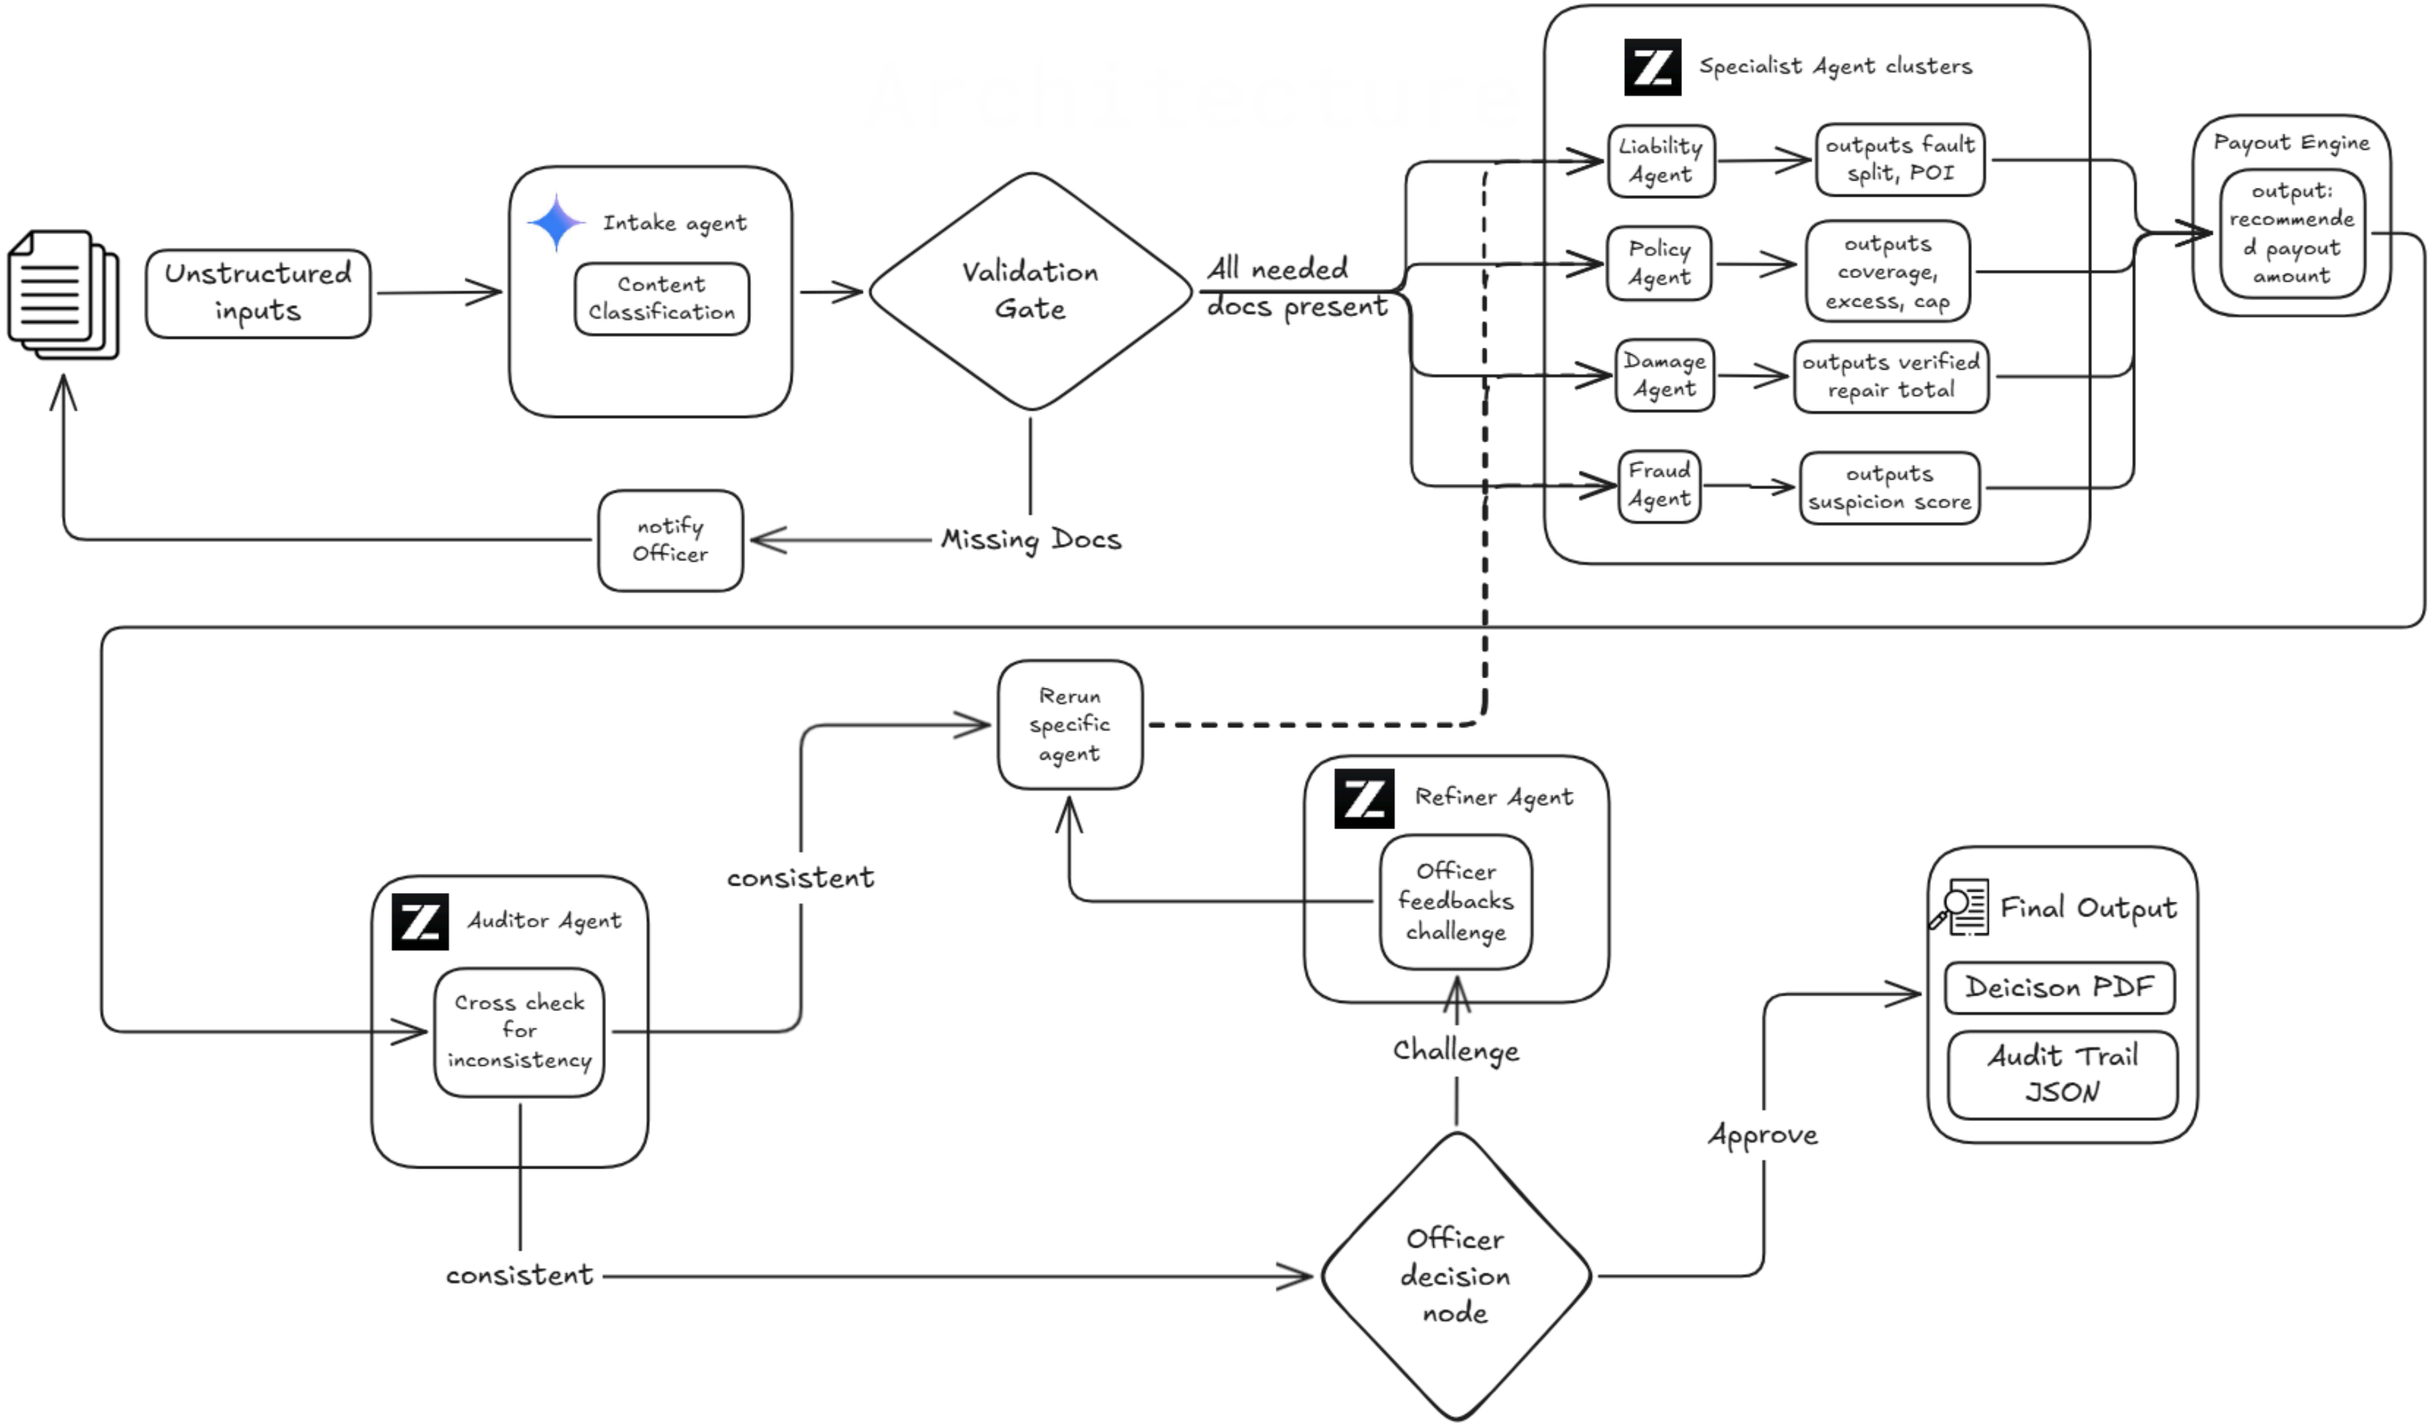
AI Drafts All the Documents provided into a formal claim document

Officer reviews

Approve / Decline / Challenge

The officer only needs to decide

If the AI is not confident, it escalates not guesses



Unstructured inputs
Intake agent
Content Classification
Validation Gate
All needed docs present
Missing Docs
notify Officer
Specialist Agent clusters
Liability Agent
outputs fault split, POI
Policy Agent
outputs coverage, excess, cap
Damage Agent
outputs verified repair total
Fraud Agent
outputs suspicion score
Payout Engine
output: recommended payout amount
Rerun specific agent
Refiner Agent
Officer feedbacks challenge
Auditor Agent
Cross check for inconsistency
consistent
consistent
Challenge
Officer decision node
Approve
Final Output
Deicison PDF
Audit Trail JSON

Is It Reliable?

Human-in-the-loop

AI drafts only
Only Officer makes final decision

Self-checking AI

Detects inconsistencies
Challenges weak reasoning
Escalates uncertain cases

Explainable Reasoning

Structured decision output
Clear evidence references
Full audit trail

Others scale manpower. We scale intelligence

Demo Video

Innovation

Old system (Traditional Tools)

Move documents

Manage workflow

No decision reasoning

SettleOps AI

Multi-document reasoning

Fraud detection

Decision drafting

Explainable logic

Impact

Faster Decisions. Better Outcomes. Lower Cost.

Claims Offices

Fast review

Less cognitive load

Defensible decisions

Insurance Company

Higher throughput

Reduced cost

Fraud detection accuracy

Customer & Fleet

Faster claim settlement

Less downtime

Better experience

From hours minutes.

From manual intelligent.

Business Value

Auditable (Every decision is fully traceable)

Complete claim review log

Clear evidence references

Ready for audit & compliance

Controllable (Humans stay in control)

Approve, decline, or challenge anytime

Minimal effort to review AI output

No blind automation

Explainable (No black-box AI)

Decisions broken into steps

Coverage, liability, workshop quotation clearly shown

Easy for officers to understand & justify

Thank You.
